Family History : The Asinari family goes back to the Middle Ages, at least to the date 771, and comes from the Asti region of Piedmont. Always of noble rank, since feudal times, the then head, Carlo Asinari, contracted a marriage with Catarina, who was the daughter of Count di Rossillon. That was in 1642 and the two names were then joined together. By 1752, they were acknowledged as dukes and marquises of Bernezzo - both on the basis of male primogeniture.
