Description of Arms :

[Index](#)

Principal Title : Duke di Casalanza.

Creation : Naples, 1815.

Subsidiary Titles : Baron von Bianchi.

Family Name : Bianchi di Casalanza.

Family History : This family originally seems to have come from the Northern part of Italy but, by the XVII Century, was established in the Kingdom of Naples. For, in the year 1815, it was inscribed in the rolls of nobles, with the rank of duke. This Neopolitan enoblisment was recognised in Austria, the same year, with the title of Austrian baron following the next. This explains the "von" in front of a very Italian-sounding name.

The Italian kingdom recognised the title of Duke of Casalanza, with the right to be addressed as *don* and *donna* in 1904.
