Family Name : Torlonia.

Family History : This is the second branch of the Torlonia family, which came from France to Italy around the year 1700. The senior line had already acquired several titles and was later to be so honoured by the Pope.

This line, however, was the first to receive a pontifical title. In 1814, by an edict of Pope Pius VII (Chiaramonte, 1800-1823) the title of Prince of Civitella Cesi was created, on the basis of male primogeniture.
