Principal Title : Duke of Moctezuma de Tultengo.

Creation : Spain, 1865.

Subsidiary Titles : Marquis of Tenebrón, Viscount of Ilucan, Grandee of Spain.

Family Name : Marcilla de Teruel-Moctezuma y Jimenez.

Family History : The name of this family instantly arouses curiosity, because of its nearness to that of the legendary Mexican emperor, Montezuma, who ruled up to 1520. It was he whom Cortez took hostage and he was mortally wounded when his people tried to rescue him. And, indeed, Aztec royal blood does flow through the veins of this family.

In 1627, a descendant was made a Spanish count. In 1766, came the added honour of the style of Grandee of Spain. The title of duke was created, in 1865, in favour of don Antonio Maria de Moctezuma y Marcilla de Teruel, Marquis de Tenebrón and Count de Moctezuma.
