

Dohna-Schlobitten

Description of Arms :

Principal Title : Prince zu Dohna-Schlobitten.

Creation : Prussia, 1900.

Subsidiary Titles : Count zu Dohna-Schlobitten (1648).

Family Name : zu Dohna-Schlobitten.

Family History : This family goes back to one Heinricus of Rotau, 1127. Their principal possession, that of the burgraviate of Dohna, passed from the family back to the Elector August von Sachsen in 1558. This was following a decree of the Emperor Ferdinand I. From there it passed to King Friedrich of Bohemia in 1619.

However, the Dohna family was recognised as being of the rank of Burggraf of the H.R.E., together with that of Count, in 1648. This honour was confirmed in the Electorate of Brandenburg.

One branch was then promoted to the level of Prince - with the style of Serene Highness - in 1900.
