

Estremera

Description of Arms :

En campo de plata, un leon rampante, de prupura, coronado de oro.

Principal Title : Duchess of Estremera.

Creation : Spain, 1568.

Subsidiary Titles : Grandee of Spain.

Family Name : Bustos y Marin.

Family History : In 1568, don Ruy Gómez de Silva was created Duke of Estremera. His was an old Castillian family and he was also Prince of Eboli, Count of Melito and Duke of Pastrana. To illustrate how complicated the succession can be in Spain, it is worth noting that these latter titles are still in the Silva family and appear under the entry for the Duke de Pastrano. It can also be said that the member of the Italian Doria family, who is Prince di Andri, is also Duke of Eboli.

The title of Estremera was restored, in 1913, in favour of don Ivan de Bustos y Ruiz de Arana and the present Duchess is descended from him
